

Strange ways to get things done

You came back late each night
You didn't switch on the light
You just went to bed to sleep

I was lying in my room
with all the things that I assumed
with whom you were hanging out

You just never said a word
about the stuff that I had heard
about you and that guy

You got – strange ways to get things done
You got – strange ways to get things done

I just lost the faith in you
'cause I knew that things were true
that our friends were talking 'bout

I knew that everything was gone
I knew that I had to be so strong
for all the things to come

you just never said a word
about the stuff that I had heard
about you and that guy

You got – strange ways to get things done
You got – strange ways to get things done
You got – strange ways to get things done
You got – strange ways to get things done
